

If you live outside of the city, then you live unincorporated St Lucie County.

The county is paying for your surgery and a rabies vaccination. You are still responsible for a microchip and your county registration.

The deposit for this program is \$20.

All pets must have a current rabies vaccination and a microchip. If they do not, the rabies vaccination will be provided at no charge under the COUNTY program and the microchip may be purchased for \$10. The County registration is provided by Operation SOS at a cost of \$10 for a 1 year registration and \$25 for a lifetime registration.
